- b. If the parties are advocating a departure from the dates set forth in the Patent Local Rules, set forth the basis for said departure:

Plaintiff:

This case includes, among other things, claims for declaratory judgments of invalidity and noninfringement of the patents-in-suit. Thus, the question of noninfringement will be in this case regardless of whether MacroPoint elects to make an affirmative counterclaim of infringement. As the Local Patent Rules reflect, the filing of a motion under Rule 12 does not relieve a party of its obligations to participate in discovery "absent an order from the Court stating otherwise." L.P.R. 1.3. Accordingly, notwithstanding MacroPoint's pending motion to dismiss, this case should proceed and discovery disclosures should commence in accordance with the deadlines set forth in the Local Patent Rules. Plaintiff is advocating a departure only to include deadlines for Noninfringement Contentions and Infringement Contentions that are not otherwise provided for by L.P.R. 3.8.

Defendant:

Consistent with L.P.R. 3.8, and to avoid unnecessary complication of the schedule, Defendants advocate triggering the initial patent disclosures and all subsequent deadlines required under the Local Patent Rules by the service of an Answer because no party has yet made a claim of patent infringement. This proposal avoids the risk of unnecessarily wasting the resources of the Court and the parties. In its schedule, Defendant is advocating a departure to eliminate an overlap between the close of any potential Claim Construction Expert Discovery and the filing of the Opening Claim Construction Brief to streamline the claim construction briefing process. Defendant also is advocating for a longer discovery closing period after the claim construction ruling (75 days versus 30 days) to enable the parties to serve and respond to written discovery, as well as take any additional fact depositions that may be warranted after the Court's claim construction ruling. And, as with claim construction expert discovery, Defendant is proposing a departure to eliminate an overlap between the close of fact discovery and the opening of expert discovery. Lastly, Defendant is suggesting that the Advice of Counsel deadline be set for a predetermined time after the Court's claim construction ruling, instead of before an unknown fact discovery deadline, which is based on the Court's claim construction ruling.
